

II World Congress of Public Health Nutrition I Latinamerican Congress of Community Nutrition

Alfândega, Porto, Portugal 23-25 September, 2010

Moving towards a healthy & sustainable nutrition

WELCOME TO PORTO World Heritage

Overlooking the Douro River, Porto is one of the most ancient European cities. It was born and developed from the northern bank of this river during the Middle Ages. One of the most significant aspects of Porto and its historical centre is its landscape, combining harmony with the urban structure and presenting a frame of rare beauty. The city was classified as World Heritage by UNESCO in 1996.

When discovering Porto, you will find many surprises. Besides its welcoming and conservative environment, Porto is also contemporary and artistic. This is shown not only in the streets, architecture, monuments and museums but also in the terraces, restaurants and leisure and shopping areas.
